Reading desk lamp

Three color temperature adjustment , Sliding dimming , With LED indicator light

BL-1072

Power: 8W LED (included)

Voltage: AC100–240V, DC12V

Colour Temp: 3000K–4000K–6000K

Lumen: 480 Max

CRI: ≥80a

Sliding stepless dimming to adjust the brightness of the light

Slide stepless dimming mode:

- Touch on/off key,the initial brightness is 100% rate.Moving your finger on the translucent line up and down to stepless dimming smoothly,truly realize adjusting suitable brightness at will.

- Touch on/off key again to turn off the lamp and it memorize the current CCT and brightness.When turn on the lamp again,It remains last CCT & brightness, dimmer indicator light stop in the place as last time.

Emergency charging function, Three color temperature adjustment, Touch stepless dimming

BL-1921-C

Power: 4W LED (included)
DC5V

Product Features

Charging, red indicator   Full charge, Green indicator

离线保护   自动控制

调色·开/关·调光

Warn light, day light, cool light
Three color temperature control mode   ON / OFF   Touch stepless dimming

Offline protection :
When the power is connected,the luminaire can't be used,only battery enter charging status,until it's fully charged.
When the power is disconnected,the luminaire neither be used nor be charged,only can be used until selected auto control mode.If the luminaire is not used for a long time, pull the switch to the offline protection mode to protect the battery from consuming capacity.

Auto control :
When the power is connected, the battery will enter the charging state while the desk lamp is being used.
When the power is disconnected, no matter the desk lamp is used or not, the battery will stand by and the desk lamp can be used at any time, but this mode will gradually consume the battery power.

Infrared remote control

- The remote control can be separated from the lamp body
- The effective distance of remote control is about 5 meters
- The remote control and lamp body are connected by
  magnet, it is easy for using.
